PROVIDER DIRECTORY
Friday Health Plans Provider Directory Information

Friday Health Plans maintains a network of Providers and facilities sufficient to assure that all covered benefits are available to Members without unreasonable delay as is possible given the rural nature of much of the service area. Our contracting strategy is broad-based and personalized at the same time. We also work with employers and brokers to identify and address individual needs in underserved areas.

Friday Health Plans employs a number of means to ensure network adequacy to meet the needs of Friday Members. Friday uses reasonable criteria including, but not limited to:

- Ratio of Primary Care Providers (PCPs) to Members;
- Ratio of Key Specialty Providers (KSPs) to Members;
- Geographic accessibility including proximity of acute care hospitals;
- Waiting times for appointments;
- Hours of operation; and
- Volume of technological and specialty services available to serve the needs of Members.

You may see any contracted doctor without getting a referral or preauthorization for an in-network consult only. Many procedures, services and any in-patient admissions do require preauthorization.

How to Notify Friday Health Plans of Provider Directory Inaccuracies:
If you have discovered an error in our Provider Directory, please e-mail providers@fridayhealthplans.com to let us know. We make every effort to obtain the correct information from our providers.
