

## CHIROPRACTIC BENEFITS

### What are your chiropractic benefits?

- Friday Health Plan's chiropractic benefit is provided through American Specialty Health (ASH).
- Chiropractic services are covered when provided by ASH chiropractors.
- Benefits are limited to evaluation, lab services, and x-rays required for chiropractic services and treatment of musculoskeletal disorders.
- Find a chiropractor at [fridayhealthplans.com/find-a-doctor](https://fridayhealthplans.com/find-a-doctor)

### How many visits a year do I get? How much does it cost?

- You can visit a chiropractor 20 times per year.
- Each visit is a \$40 copay (copay amounts do apply toward max out of pocket but do not apply to deductibles).

### Billing Information

- Because benefits are limited as specified above, ASH can balance bill the member for any additional services beyond the limited services offered to Friday Health Plan members.
